REACH PROJECT

The European regulation (CE) n°1907/2006 of December 18th, 2006 concerning the Recording, the Evaluation, the Authorization of chemical substances, « REACH » will have an impact on chemicals placed on the European market.

Alcatel Vacuum Technology France wants to anticipate the possible needs of change of chemical products, and want to get time to qualify these new chemicals products.

The objective of Alcatel Vacuum technology is to comply with the REACH rule.
